 - E. **Trees Near Runway.** Mr. Champion reported that the trees on the west side of the runway have not been kept cut like they should; that they are about 12 to 15 feet tall; that they need to be cut; that it is up to the County to keep the area clear of trees; and that the growth could result in an approach violation from the FAA.
 - F. **Grass.** Mr. Champion said that grass is very thick and high near the runway; and that it will need to be cut and baled and could possibly be used for mulch.
 - G. **Introduction of Katie Eleam.** Ms. Hill introduced her assistant, Katie Eleam.
 - H. **Fencing Design.** Ms. Hill reported that the design is moving along and should be 75% complete by the end of the month; that plans should be to GDOT and the County in the fall; that GDOT has offered an additional \$200,000, which will require a match of \$50,000 and which cannot come from the land bank; and that she will have GDOT provide info to the County regarding the additional allocation possibly in time for the October 3 meeting. Discussion included that while Callaway Gardens is ready to sell the property needed for the fencing project, the County is tight on funds and cannot move forward with a purchase.
 - I. **Hangar Pavement.** Ms. Hill said the pavement repairs at the hangar are 99.9% complete and are waiting on the second coat of paint. She also reported, which was confirmed by Mr. Champion, that there was no pooling of water as a result of the recent hurricane rains.
